

First Class

Diamond Shorthorns

guests **BULL and
FEMALE SALE**

Friday, February 28, 2025 · *at the farm* Lampman, SK · 4PM

welcome TO THE SALE

It is with great pleasure that I welcome you to the Inaugural First Class, Diamond Shorthorns & Guests Bull & Female Sale. We have wanted to host a bull sale at the farm for a few years now. Thanks to our sale partners Diamond Shorthorns, our guest consignors and the ability to acquire some great genetics it has finally become a reality. I'd like to personally thank everyone that has trusted in us to allow this sale to happen.

The offering we have is placed before you in my mind is nothing short of fantastic. The bulls are the right kind. Stout, big middled, sound and hairy. They have been developed and fed to not only go out and work for you, but to last. We are extremely proud of this group and we stand behind them 100 percent. The purebred females are really something special. This is quite a set and I believe you would have to wear out a brand new pickup driving around the country to find a group to match them. These heifers are taken off the top of our selected replacement pens so please buy with confidence. Our good friends at Peckover Farms also have 10 open commercial females on offer that have been selected right off the top of their replacement pens. With all this being said, the offering is the very best that all the consignors have to offer, the way it should be!

The cattle are all housed at First Class and are available to be viewed at anytime. Shoot me a text to set up an appointment, we don't get too far from the yard this time of year so should be able to accommodate almost any schedule. Please plan on joining us February 28th for the sale. We will have a small lunch provided ahead of the sale as well as a brisket supper after, with the bar open all day! It will be our pleasure to show you some hospitality. If you aren't able to make the sale there is numbers listed on the front of the catalogue to help assist you in your purchases. DLMS will also be onsite to provide internet bidding if that's what you prefer. I hope to visit with you about the offering and see you sale day.

Regards,
DARNELL FORNWALD *First Class Shorthorns*

welcome TO THE SALE

We want to invite you to look at our 2025 bull offering. It's a quality one. This group includes bulls full brothers to Diamond Hendrix 2H, bulls sired by Diamond Hendrix 2H, Royalla Rockstar K274 and Diamond 2nd Hubback 38H. These bulls' calves are exceptional and combine some leading Canadian and Australian genetics. We always say you can judge a herd bull by his dam, and these guys are out-of-sound functional cows we are proud to have walking our pastures. These bulls' paternal and maternal sisters are in production and have outstanding udders and calving ease. We are also proud that they have generations of Diamond breeding. Look at these herd sire prospects; they combine a lot of functional traits in eye-appealing packages. Please call us if you have any questions or need more information on these bulls or the elite female by Gilman's All In 6K we are also offering.

Regards
DIAMOND SHORTHORNS

| 83 lbs | 743 lbs | 1302 lbs | 10 | 1.6 | 68 | 103 | 30 | 65 | 5 |

When I first came across Gilman's All In 6K I knew he was the bull that I had been searching for and I needed to find a at to own him. I immediately got on the phone to try and put a deal together and when sale day came the hammer dropped with our name on him! When he finally arrived in Canada he was even better than expected. His tremendous muscle sale and length along with a massive foot and large scrotal made him the breeding package we needed along with being perfect headed, nice fronted and having an unbelievable set of EPD's behind him makes him an elite sire in the shorthorn breed.

Fast forward 2 years and he was named the National Grand Champion Bull, the Canadian Western Agribition Grand Champion Bull and the World Champion Bull. Our second set of calves are hitting the ground and are extremely impressive. All In 6K truly lives up to his name and is a bull that you will want to go "All In" on.

On offer is a lifetime breeding share. Buyers will receive unlimited in herd semen for life. This share cannot be split and shares and cannot be utilized on any partnership cattle. This shares cannot be resold at any time and if an owner disperses, the semen goes back to First Class Shorthorns. No trading or selling the semen.

| 97 lbs | 869 lbs | 1167 lbs | 14 | 0.2 | 49 | 68 | 20 | 45 | 8 |

Safe Word 101K has been an absolute favourite since birth. Being out of the breed matron Little Rebel Knay Knay and the great Diamond Hendrix, he is bred for absolute greatness. Safe Word is very soft made and deep middled, big volumes, sound footed and extremely attractive. Combining the perfect amount of calving ease, maternal strength and power we feel he is a bull that is going to leave a very positive mark on the breed. We plan on utilizing his genetics in both the cow and heifer pens this spring. *Selling 1/2 semen interest, no possession for 2 breeding seasons. Willing to negotiate possession with later breeding herds. Show rights reserved until the end of Canadian Western Agribition 2026. Option to double up the winning bid and own 101M in his entirety.*

DAM - LITTLE REBEL KNAY KNAY 2K

SIRE - DIAMOND HENDRIX 2H

3

Aviator 106M could be the absolute best bull in the sale based on paper alone. Being sired by the infamous Aviator 503X and out of Blenview Glamorous Annie who was the \$45,000 CWA high seller he is a pedigree that most of us can only dream of. 106M though is more than just royally bred. He is extremely long bodied, hairy, good footed and has an absolute striking look to him. He is a bull we plan to utilize in our own herd via AI.

4

This roan bull combines 2 of the most \$ Indexes, \$ Calving Ease and \$BMI, that should produce daughters with productive daughters with longevity. The prepotency of Royalla Rockstar K274 to sire both herd sires and foundation females is becoming more and more evident. We can confidently say that Diamond Zealous Baroness is one of the top Shorthorn cows, with longevity, udder quality, but equally important top producing sons and daughters. Flushing her to produce full sibs to Hendrix has resulted in some excellent full brothers.

Terms to be announced on sale day.

7

He has the length, attractiveness, and style of his great sire, Royalla Rockstar K274. Coming from the maternal powerhouse Baroness cow family, one of the most influential in our herd since 1980. When selecting females and sires, the goal is to produce attractive cows that consistently have exceptional calves. We have spent generations in our family and cattle selecting for seedstock that produce great bulls like Mick Jagger, full ET brother to Hendrix. If you are looking for a white bull to add more roan replacements, look no further!

Terms to be announced on sale day.

8

This rugged, big bodied, long-spined, sound-made bull proves calving ease is about shape more than BW. He was born unassisted in under 30 minutes and was up and sucking within minutes. We are so keen on this bull that we had initially intended to retain him for his multiple exceptional traits. Diamond Finest Maid 34F is a functional, wide-topped female with the high quality we strive for here at Diamond.

A roan, stouter made son of Diamond Hendrix 2H. His CED puts him in the top 5% of the breed. This bull received significant consideration for our showstring last fall. He is good and has been a calf talked about since birth. His maternal grandsire is the great Diamond Belvedere 29B, who also sired the female that produced the Supreme Champion Bull at Brandon Ag EX 2021 Hatfield Andrew 71H.

DAM - DIAMOND HAND MAID 32H

10

Montgomery has scale crushing performance, big foot, and sound structure while oozing eye appeal. His granddam, Six S April 55A, has been the best producing cow in my herd, 55A's daughter and sons elevate my program to the next level. TGN Eileen 3E is an outstanding JSF Addicted 82U granddaughter. His sire, Diamond 2nd Hubback 38H, is one of the most impressive bulls out of a front pasture cow at Diamond Shorthorns. You'd be hard-pressed to find a better set of EPDs this season with 11 out of 12 above-average traits. Montgomery is the ultimate breeder bull with a unique pedigree and an outcross to many programs.

17

Malcolm is at the top of the breed for \$CEZ, \$BMI, and \$F. With his actual performance matching his EPDs and the markets being what they are, one would be wise to look at this maternally bred performance bull that isn't compromising on Calving Ease or Maternal Calving Ease. Daughters will be top-producing brood cows, with my favorite cow being his granddam. His sons will be scale-crushing, which in today's market is a license to print money.

18

Magnitude is sired by one of the most phenotypically impressive sires and is out of a female who originated in the Paintearth Shorthorn program; she combines the influence of world-renowned herds such as Matlock Shorthorns and Eionmor Shorthorns. This younger bull is jam-packed with genetic potential.

19

Only an April-born bull who combines my favorite female line, which is highly prolific originating from the Six S herd. Sired by a bull I actively sought as he carries traits that will shape the future of cattle production. Marcus also has these traits such as fleshing ability, soundness, and flexibility to be mated in many ways. His EPDs are excellent, his pedigree is fantastic, and his performance is impressive; not many bulls like this are offered.

20

1M is the lead off bull in the Speckle Park section and what a bull he is. He is one of the stoutest, biggest volumes bulls on offer. He will sire those highly sought after speckle influence steers that top the markets. Have a good look here sale day.

Ringleader is a bull that everyone will remember. He was campaigned alongside the \$45,000 Blenview Glamorous Annie and then went on to be a favourite and high seller at the Canadian Premier Sale. Through some unexpected events that turned out to be fortunate in the end he ended up in our herd. We have used him 2 breeding seasons now and with out very small herd it is time to move on. Ringleader is without out a doubt the fastest maturing, highest growth and most powerful shorthorn bull we have ever laid eyes on. If you're looking to add pounds to your calves without sacrificing structure, maternal and longevity then this is the bull for you.

A full brother to Diamond Hendrix 2H, whom we appreciated enough to be used last summer at TGN Shorthorns. Lucrative has performance, an attractive deep jaw, wide back, big foot, significant hip, and sound structure. With a dam like Diamond Zealous Baroness 5Z, you can count on having highly productive daughters and outstanding sons; every bull she has produced was sold as a herd sire, and the full brothers in this sale are among the best! When we select a herd sire or offer a herd sire, we emphasize the dam, her phenotype, and maternal capabilities to allow our customers to take out the guesswork.

Knay Knay 56M was an absolute fan favourite this fall when she was shown alongside her mother. This female has the most potential of any heifer calf we have ever seen at this age. Females like this do not come around very often so we wanted to share a piece of her with someone that appreciates her genetic package as much as we do. This is a donor in the making and a future matron of the Shorthorn breed. She is extremely stout and big volumed, yet elegant feminine and beautiful headed. Being the offspring of Knay Knay and All In she checks every single box imaginable.

Selling 50% interest and no possession. Option to double up the winning bid and own 56M in her entirety.

30

TGN Irish Rose 4M is out of a first calf heifer, and she did an amazing job. This heifer is stout, soggy, and feminine; she has all the makings of a top brood cow, such as the longevity of her maternal grand dam, who, at rising 10, could easily be mistaken as a cow at least half her age.

31

Karma 1M is a heifer that I've really liked since birth. She is dark cherry red, extremely hairy and feminine made. Her mother was campaigned very successfully as a calf and 1M is on track to follow in her mother footsteps and a great potential show heifer and then brood cow.

32

19M is a heifer that will definitely turn some heads sale day. Sired by the great Redneck clubby bull and being out of a cow that is known for raising champion show steers, she is a top choice for a show heifer prospect. She is ridiculously hairy, extremely stout, well built and fancy fronted. Her maternal brother was shown very successfully winning several jackpots, was reserve champion steer and the Estevan 4-H regional and was grand champion steer and Shorthorn Jr Nationals in Carmen. If you're looking for a show heifer or a factory to produce champion show steers then look no further.

33

3M is pen favourite on the speckle side of things. Here is a really attractive, well made female with a bright future. Her mother has been a top cow and is a favourite in the speckle program.

I absolutely loved this cow the moment I saw her out at the Ontario Junior show as a 2 year old. She was huge volumed, stout made, long bodied, perfect footed, perfect uddered and yet somehow still extremely elegant and feminine. She was without a doubt the very best Shorthorn cow I had ever laid eyes on at that time. It took a pile of convincing but somehow we got Jamie and Ellie to agree to sell 2/3's of this cow in the Agribition sale where she then commanded a record breaking \$45,000 for 2/3 interest. I was fortunate enough to be a buyer of one of those 1/3's. Fast forward few years and some fortunate events led to Jamie and myself being able to buy out our other partner and secure this amazing female 50/50. She has now proven herself yet again and again, with her latest accomplishment being the dam of the 2024 Royal Grand Champion Female. Annie truly is a "Breed Leading" female. Do not miss an opportunity to acquire direct genetics from this matron herself. This could be the last time such a thing is offered.

Diamond Hendrix 2H has exceeded all our expectations. He is one of the most correctly constructed bulls with a sound foot and fluid movement. He has an abundance of eye appeal and style. Hendrix has consistently sired lighter birth weights, yet they have grown well, and he stamped them with the same correctness and style he has. His daughters are now in production, have beautiful udders, and have raised impressive calves. His dam has been one of the best producers at Diamond, with daughters, sons, and their offspring working in several herds. He is sired by the world-renowned Royalla Rockstar K274 whose offspring continue to break records. When we showed Hendrix as a two-year-old, he went out to win Grand Champion Shorthorn Bull at the Olds Regional Exhibition after covering 33 head. A proven herd sire is valuable for improving specific traits, and Hendrix is already a Breed Trait Leader for CED (# 13 and youngest bull In top 25) BW with - 2.1 top 10%, CEM top 2%, he already # 15 as Trait Leader for \$CEZ and a trait leader for \$BMI. A perfect bull to use on both cows and heifers to get active, lively calves that go on to develop with real eye appeal!
